FEDERAL ACT IS BASIS FOR NEW OHIO DRY LAW

Temperance Com. Seeks To Draft Enforcement Act For State.

BILL WILL NOT INCLUDE SEARCH OF PRIVATE HOMES

New Auto Tax Law Provides Graduated Scale For Cars and Trucks

Columbus, Dec. 2.—With the federal prohibition enforcement bill as the basis for a state prohibition enforcement measure, legislative temperance committee this morning went into session in the first attempt to work out a measure that will receive sufficient support to pass it as an emergency measure.

Sen. Miller of Muskingum, chairman of the senate temperance committee, went into session with members of that committee to consider the measure, and Representative Crabbe of Madison county, chairman of the house temperance committee, went into session with a select committee of house members composed of both liberals and drys to discuss the measure. Mr. Crabbe will attempt to find out from the liberal members just what provisions they will stand for and which they will oppose.

The proposed bill as drafted follows closely the provisions of the federal enforcement measure, made applicable to the state. The bill carefully avoids any provision for search of private residences. A provision for such search was one of the objectionable features of the Crabbe bill defeated at the recent election. The proposed measure also combines the enforcement machinery with the regulatory provision.

Enforcement is placed in the hands of the attorney general, one of his regular assistants to act as protonotary commissioners. No provision is made for deputy commissioners. The old Crabbe bill provided for four of these to administer in definite territory. Like the federal measure, the proposed state measure defines intoxicating liquor as any drink containing more than one-half of one percent of alcohol.

The joint taxation committee considered changes in the graduated automobile tax measure introduced yesterday.

Instead of fees being based both on horsepower and weight of the machine the committee may recommend a flat

SUES AM. BOTTLE CO. FOR \$5,583

Arthur C. McNealy Says Manager Driving Company Truck, Caused Permanent Injury to McNealy's Leg.

Arthur C. McNealy, through his attorney F. A. Bolton, has brought suit in the court of common pleas against the American Bottle company and Homer Warthen, asking that he be awarded damage in the sum of \$5,583 for injuries which he alleges he suffered on June 18, 1919.

The petition alleges that plaintiff was riding a bicycle in Park avenue and that defendant Warthen, an employee of the bottle company, was driving a truck from the company and when crossing North street turned far over to the right to make a turn into Park avenue, and through his negligence and carelessness and without notice or warning crossed said street and collided with plaintiff. The latter was thrown from his wheel which was completely wrecked, his right leg was crushed and broken in two places between the knee and ankle and he alleges that he will be forever crippled and lame.

TRADE COMMISSIONER RESIGNS.

Washington, Dec. 2.—J. Franklin Fort, former governor of New Jersey and chairman of the federal trade commission, has resigned because of ill health.

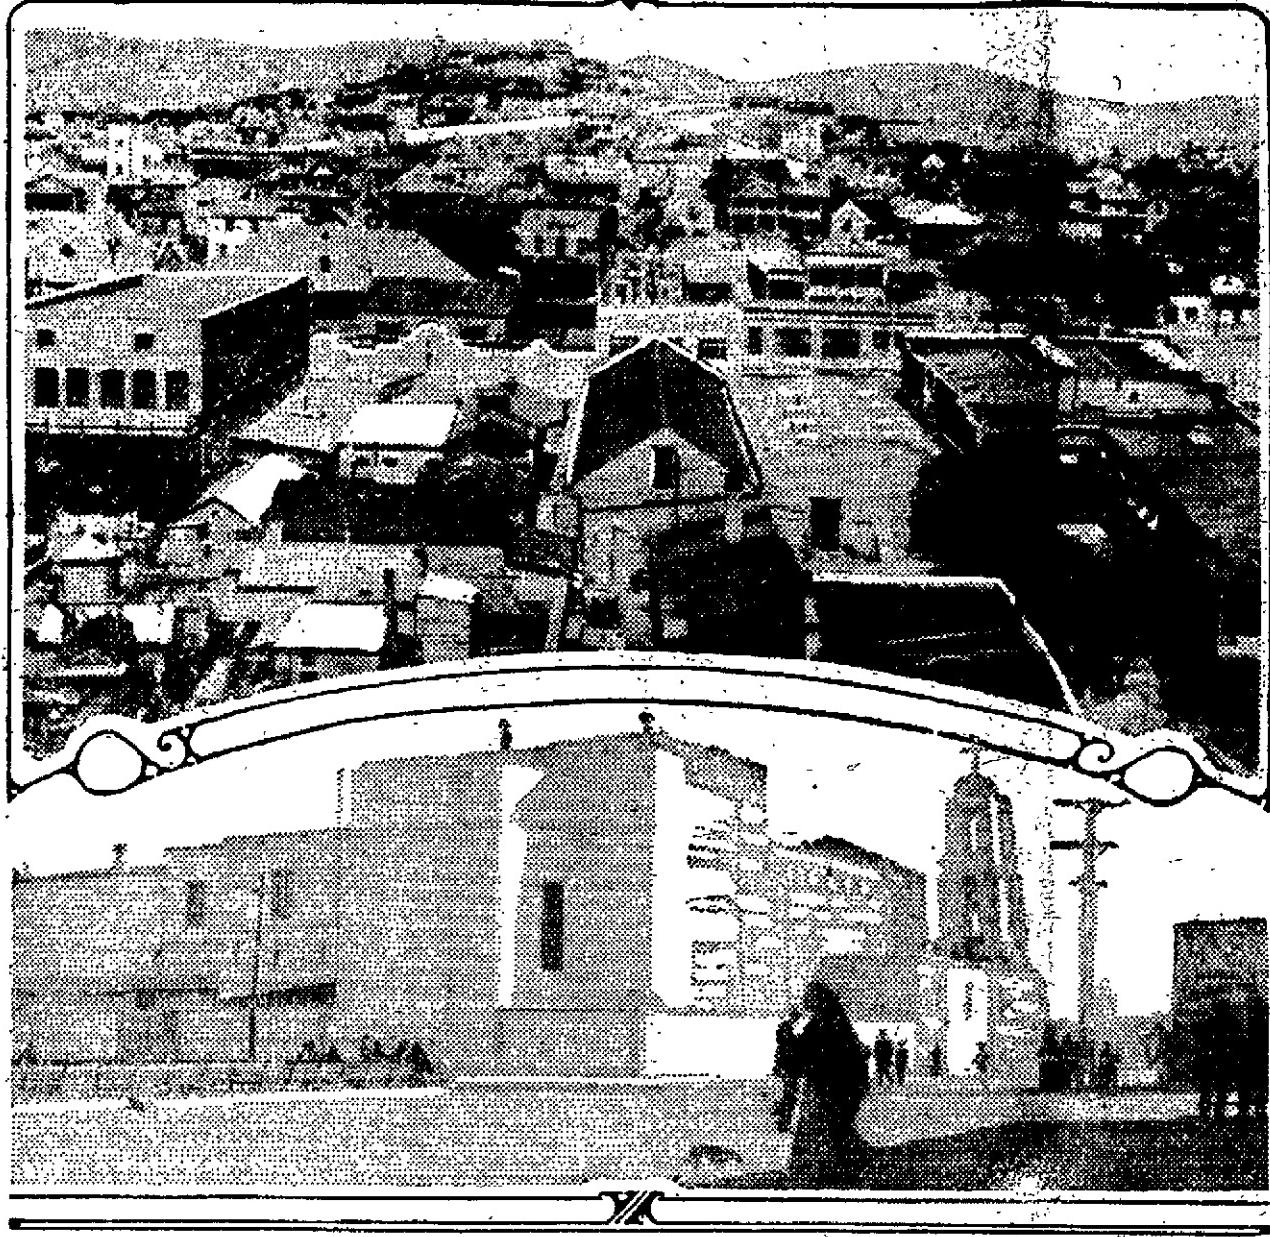

EXTEND RESTRICTIONS ON COAL TO CONSERVE RAPIDLY WANNING SUPPLY

Chicago, Dec. 2.—Restrictions on the use of coal already put into effect by the federal coal committee, where the pinch of necessity had been felt today were extended throughout the nation under an order of the federal fuel administrator. The most extensive cut-down of industrial coal in history was in prospect and domestic consumers were preparing to endure privation and discomfort as the strike of bituminous coal miners entered its second month.

Only Kansas, where volunteers worked in the strip pits under protection of state and federal troops, and in the New River fields of West Virginia was the prospect today of increased production. In the former, seven pits were worked, and in West Virginia operators said normal production was in sight by the end of the week.

Throughout the remainder of the country, however, miners apparently remained militant for the determination to go on strike in view of the

U. S. WILL SEIZE BORDER CITIES IF BREAK COMES WITH MEXICO

Nogales and (below) a view in Juarez.

In case of a serious break with the Mexican government one of the first acts of the United States would be to seize Mexican border towns. The nearest of these to

part of the town, looking toward the boundary line. Juarez is just across the Rio Grande river from El Paso. It was occupied for a time by U. S. troops last summer.

YANK ENVOYS DELAY DEPARTURE FOR HOME

GENERAL SANCHEZ IS MISSING AFTER VILLA MASSACRE

Paris, Dec. 2.—The American delegation to the peace conference which was to have sailed from Brest for the United States on December 6, has postponed its departure for home, it was learned today.

A considerable part of the personnel of the delegation, however, will leave Paris for Brest on the evening of December 5 as previously arranged.

It was learned from a high authority that the change in the plans of the delegation is due to the failure of the Germans to sign the protocol ratifying the peace treaty. It is pointed out that the treaty is not ratified the situation between Germany and the United States as well as the other allied and associated powers goes back to the status created by the armistice. Hence the United States is still quite as much interested as its associates of the allied powers despite the fact that senate has not ratified the treaty.

OFFERS BILL TO CONTROL RADICALS IN AMERICA

Washington, Dec. 2.—Declaring the time has come when "the federal government must take steps to protect itself and the government of the several states from persons and organizations advocating communism and violence as a means of bringing about a new social industrial or political order," Representative Kelly, Republican, Michigan, introduced a bill defining "criminal syndicalism" and making it a felony to advocate it.

Under the measure "criminal syndicalism" is "the doctrine which advocates crime, sabotage, violence or any method of terrorism for the overthrow of a republican form of government as a means of accomplishing industrial economic and social policies."

Alleged advocates it would be ordered arrested and persons of foreign birth who had become naturalized would lose their American citizenship and also be deported.

Attacks of radicals on state governments as well as the federal government would be punishable under the measure.

PEACE COUNCIL TURNS DOWN SLAV REQUEST

Paris, Dec. 2.—The supreme council with Premier Clemenceau presiding today refused the Jugo Slav request for the coal mines of Pecs, Hungary, leaving their disposition to the reparations commission.

The council resumed consideration of the German warships. The principle of general demolition of all the German warships was maintained, but France will receive ten submarines in good condition as compensation for the warships she was unable to construct during the war.

Discussion continued with regard to the allotment of material resulting from the demolition of the German ships.

Members of the railroad brotherhoods in Kansas today were expected to act on a resolution adopted last night to request authority to refuse to handle coal mined by non-union workers.

Under the sweeping order of Fuel Administrator Garfield, limiting delivery of fuel or power only to essential consumers in the first five classes of war priorities list, curtailment of production was in prospect in factories turning out boots and shoes, brass and bronze manufacturers, clothing and machinery (except where specifically ex-

(Continued on Page 11, Col. 2)

cluded) and electrical contractors.

Washington, Dec. 2.—Delegates to the second industrial conference were called to resume their work today at 10 o'clock before closing down. Secretary Wilson was elected permanent chairman at the first meeting yesterday. Because of the broad field to be covered, it was said there had been no decision as to how the conference would proceed.

(Continued on Page 11, Col. 2)

Chicago, Dec. 2.—Restrictions on the 14 per cent wage increase ordered by the federal government and accorded to operators.

In Wyoming new labor troubles threatened to decrease the small amount of coal being brought out. Except for the shutdowns at the beginning of the strike and twice since, the mines in that state generally had maintained operation.

Members of the railroad brotherhoods in Kansas today were expected to act on a resolution adopted last night to request authority to refuse to handle coal mined by non-union workers.

COAL SITUATION IN OHIO BECOMES ACUTE IS CLAIM

Public Utilities Threatened With Idleness By Con- fiscation.

RAILROADS SEIZE FUEL LIMA MANAGER SAYS

Shortage May Close Plant at Penitentiary, Leaving Statehouse Dark.

Columbus, Dec. 2.—That the coal situation in Ohio is hourly becoming more acute as it affects public utilities and industrial plants was the information reaching the state public utilities commission today.

Alleged confiscation of coal by railroads was declared to be threatening the shut down of public utilities. James E. Dugan, manager of the Ohio Electric railway company of Lima, yesterday registered a complaint with the utilities commission against the confiscation of coal consigned to the railway power plant at Lima.

Dugan declared the railroads had confiscated 26 cars of coal consigned to him in the past week and that unless the practice were stopped he would be compelled to shut down the power plant for want of coal. He said he had only three days supply.

The coal shortage was brought home to Ohio lawmakers and state officials last night when Adjutant General Layton issued a warning that unless there was a cutting down of current of electricity the power plant at the penitentiary which furnishes current for the state house and other state institutions might have to close down.

As a result of the warning many lights were turned out in the halls of the legislature. The coal supply at the penitentiary is almost exhausted. Layton said.

STOCK SALESMAN HELD.

Chicago, Dec. 2.—H. S. Wigle, of Spokane, Washington, head stock salesman for the Pan-Motor company was ordered held to the grand jury in bonds of \$20,000 by Federal Judge Landis yesterday on a charge of perjury. Wigle is one of the defendants of the company on trial to defend charges of using the mails to defraud.

K. O. C. TO TAKE IN CLASS OF 75

Newark Council Completes Plan For Initiation Which Will Bring Columbus, Delaware and Mt. Vernon Knights to City.

On Monday evening Newark council, Knights of Columbus completed plans for a large initiation to be held in this city Sunday.

Seventy-five candidates will be given three degrees, a number of the new members being from Mt. Vernon.

The initiation will be held in the Elk's hall. At 7 a. m. candidates and members will attend mass in a body at St. Francis de Sales church.

At 9 o'clock the first degree will be conferred by Newark Council. Lunch will be served at the Hotel Warden at noon and at 1 o'clock the second de-

gree will be given by the Columbus council. The third degree, in charge of Wm. Haas and staff of Delaware, will be conferred at 3 o'clock.

(Continued on Page 11, Col. 2)

COUNCIL ESTABLISHES MUNICIPAL COURT IN PRESENT MAYOR'S OFFICE

Mayor Is Moved to Police Building After January 1—Council Turns Down Police Request For Pay Increase Because of Lack of Funds.

The city council last night established the council chamber and the present quarters of the mayor as the permanent council which will be established on January 1. A special committee reported recommended that the mayor's office be installed in the rooms at police headquarters. A saving of \$2,000 will result.

The council finance committee reported having offered bonds in the sum of \$15,873.00, authorized by ordinance of council to make up the deficiency in the safety department fund to the sinking fund trust of the city and the sinking fund of the city school district, both of which have rejected them.

The finance committee also reported on the position of the members of the police force asking an increase of salary of 15 per cent recommended by the safety director, stating that there was no available money from which an increase could be paid if granted.

Solicitor H. C. Ashcraft reported a proposition from the Baltimore & Ohio railroad company to liquidate the unpaid expense of the board and that \$1,700 be transferred to the cost of maintaining and 50 per cent

of the cost of electric current, for 18 street lamps of 250 candle power at a rate of \$20 per annum. The company under the contract would then hold the city responsible for any accidents that might occur owing to defective lighting either in maintenance or operation, and it was the solicitor's advice not even to consider the proposition in view of the responsibility to be assumed by the city in case the contract would be accepted.

A petition from The Ohio Power company asked council for the creation of a street light trust fund in the sum of \$10,000 in the name of the city, the money to be used for the administration of the law.

WILSON

(Continued from Page 1)

Believers in protection of American industries, the other believers in tariff for revenue only—must be subordinate to single consideration of the public interest in the light of utterly changed conditions. Before the war America was heavily the debtor of the rest of the world and she had to pay for what she had to make to foreign countries on American securities held abroad, the expenditures of American travelers abroad (and the ocean freight charges she had to pay to others) about balanced the value of her pre-war favorable balance of trade. During the war America's exports have been greatly stimulated, the increased prices have increased their value. On the other hand she has purchased a large proportion of the American securities previously held abroad has loaned some \$9,000,000,000 to foreign governments and has built her own ships. Our favorable balance of trade has thus been greatly increased and Europe has been deprived of the means of meeting it before existing.

Europe can only have three ways of meeting the favorable balance of trade in peace times by imports into this country of gold or of goods, or by establishing new credits. Europe is in no position at the present time to ship gold to us, so could not import large further imports of gold into this country without concern. The time has nearly passed for international governmental loans and it will take time to develop in this country a market for foreign securities. Anything therefore which would tend to prevent foreign countries from settling for our exports and thereby preventing the exports from being made. The production of the country greatly stimulated by the fact must find an outlet by exports to foreign countries and any measures taken to prevent imports will inevitably entail expenses, force curtailment of production, load banking machinery of the country with credits to carry unsold products and produce industrial stagnation and unemployment.

If we want to sell we must be prepared to buy. Whatever, therefore, may have been our views during the period of growth of American business concerning tariff legislation we must now face the fact that economic life is to a great extent American business is full of life and that America is the greatest nation in the world.

The policy of isolation will satisfy the needs and opportunities of the past, which have held it, in a straight line and give way to the successful maintenance of many strong and well equipped chemical plants. The provincial standards and program of international disarmament, it will, nevertheless, be a policy of obvious prudence to make certain of the specific regulations designed to secure

we will be brought into competition, was and may well be again, a thoroughly knit monopoly capable of exercising a competition of a peculiarly insidious and dangerous kind.

During the war the farmer performed a vital and willing service to the nation. By materially increasing the production of his land, he supplied America and the allies with the increased amounts of food necessary to keep their immense armies in the field. He indispensably helped to win the war. But there is now scarcely less need of increasing the production in food and the necessities of life. I ask the congress to consider means of encouraging effort along lines lines. Importing everything possible to promote production along economical lines, to improve marketing and to make rural life more attractive and healthful is obvious. I would urge approval of the plans already proposed to the congress by the secretary of agriculture, to secure essential facts required for the proper study of this question, through the proposed enlarged program for farm management studies and crop estimates.

I would urge, also, the continuance of federal participation in the building of good roads under the terms of existing law and under the direction of present agencies; the need of further action on the part of the states and the federal government to preserve and develop every forest resource, especially through the practice of better forestry methods on private holdings and the extension of the public owned forests; better support for county schools and the more definite direction of their courses of study along lines related to rural problems and further provision for sanitation in rural districts and the building up of medical and hospital facilities in these localities. Perhaps the way might be cleared for many of these desirable reforms by a fresh comprehensive survey made of rural conditions by a conference composed of representatives of the farmers and of the agricultural agencies responsible for leadership.

I would call your attention to the widespread condition of political restlessness in our body politic. The causes of this unrest, while various and complicated, are superficial rather than deep seated. Broadly, they arise from or are connected with the failure on the part of our government to arrive speedily at a just and permanent peace, permitting return to normal conditions. From the seething of radical forces from the seething European centers pending such delay from heartless profiteering resulting in the increase of the cost of living, and lastly from the machinations of passionate and malevolent agitators. With the return to normal conditions, this unrest will rapidly disappear. In the mean time it does much evil. It seems to me that in dealing with this situation congress should not be impatient or drastic but should seek rather to remove the causes. It should endeavor to bring our country back speedily to a permanent basis with the idea of bringing about a better understanding between these two interests.

The great unrest throughout the world over of which has emerged a demand for an immediate consideration of the differences between capital and labor bids us put our own house in order. Frankly, there can be no permanent and lasting settlements between capital and labor which do not recognize the fundamental concepts for which labor has been struggling through the years. The whole world gave its recognition and consent to these fundamental purposes in the League of Nations. The same cannot be said that world stability could not be had by reverting to industrial standards and conditions against which the average workman of the world had revolted.

And it should arm the federal government with power to deal in its criminal courts with those persons who by violent methods would abrogate our time tested institutions. With the free expression of opinion and with the advocacy of orderly political change, however fundamental, there must be no intolerance, but too much passion and malice tending to incite strife and insurrection under guise of political evolution there should be no leniency. Legislation to this end has been recommended by the attorney general and should be enacted. In this direct connection, I would call your attention to my recommendations on August 8, pointing out legislative measures which would be effective in controlling and bringing down the present cost of living, which contributes so largely to this unrest. On only one of these recommendations has the congress acted. If the government's campaign is to be effective, it is necessary that the other steps suggested should be acted on at once.

I renew and strongly urge the necessity of the extension of the present food control act as to the period of time in which it shall remain in operation. The attorney general has submitted a bill providing for an extension of this act for a period of six months. As it now stands it is limited in operation to the period of the war and becomes inoperative upon the formal proclamation of peace. It is imperative that it should stand extended at once. The department of justice has taken up the responsibility for the purpose of enacting these provisions; all of which must be abandoned on the conclusion of peace unless the provisions of this act are extended.

During this period the congress will have an opportunity to make similar permanent provisions and regulations with regard to all good destined for interstate commerce and to exclude from interstate shipment, if the requirements of the laws are not complied with. Some such regulation is imperatively necessary. The manipulation of rices by withholding of foodstuffs and other necessities of life cannot otherwise be effectively prevented. There can be no doubt of either the necessity or the legitimacy of such measures.

As I pointed out in my last message this can accomplish a great deal in this campaign. The aims of the government must be clearly brought to the attention of the consuming public, civic organizations and state officials, who are in a good position to lend their assistance to our efforts. You have made available funds with which to carry on this campaign, but there is no provision in the law authorizing the expenditure for the purpose of making the public informed of the efforts of the government. Specific recommendations has been made by the attorney general in this regard. I would strongly urge upon you its immediate adoption as it constitutes one of the preliminary steps to this campaign.

I also renew my recommendation that the congress pass a law regulating cold storage as it is regulated, for example by the laws of the state of New Jersey, which limits the time during which goods may be kept in storage, prescribe the method of disposing of them if kept beyond the permitted period, and require that goods released from storage shall in all cases bear the date of their receipt. It would materially add to the serviceability of the law for the purpose we now have in view. It were also prescribed that all goods released from storage for interstate shipment should have plainly marked upon each package the selling price at which they went into storage.

By this means the purchaser would always be able to learn what profits stood between him and the producer or the wholesale dealer.

I would also renew my recommendation that all goods designed for interstate commerce should, in every case, where their form or package makes it possible, be plainly marked with the price at which they left the hands of the producer.

We should formulate a law requiring a federal license of all corporations engaged in interstate commerce and embodying in the license, or in the conditions under which it is to be issued, specific regulations designed to secure

competitive selling and prevent unconscionable profits in the method of marketing. Such a law would afford a welcome opportunity to effect other much needed reforms in the business of interstate shipment and in the methods of corporations which are engaged in it; but for the moment I confine my recommendations to the object immediately in hand, which is to lower the cost of living.

No one who has observed the march of events in the last year can fail to note the absolute need of a definite program to be adopted in improvement in the condition of labor. There can be no settled conditions leading to increased production in the cost of living if labor and capital are to be antagonists instead of partners.

Sound thinking and an honest desire to serve the interests of the whole nation, as distinguished from the interests of a class, must be applied to the solution of this great and pressing problem. The failure of other nations to consider this matter in a vigorous way has produced bitterness and jealousies and antagonism, the food of revolution. The present way of regarding agitation against grievances is to remove the grievances. An unwillingness even to discuss these matters produces only dissatisfaction and gives comfort to the extreme elements in our country which endeavor to stir up disturbances in order to provoke governments to embark upon a course of reparation and repression. The seed of revolution is repression. The remedy for these things must not be negative in character. It must be constructive. It must comprehend the general interest. The real antidote for the unrest which manifests itself is not suppression but a deep consideration of the wrongs that beset our national life and the application of a remedy.

Congress has already shown its willingness to deal with these industrial wrongs by establishing the eight hour day as the standard in every field of labor. It has sought to find a way to prevent child labor. It has served the whole country by leading the way in developing the means of protecting and safeguarding lives and health in dangerous industries. It must now help in the difficult task of finding a method that will bring about a genuine democratization of industry based upon the full recognition of the right of those who work, in whatever rank, to participate in some organic way in every decision which directly affects their welfare. It is with this purpose in mind that I called a conference to meet in Washington on December 1 to consider these problems in all their broad aspects, with the idea of bringing about a better understanding between these two interests.

The great unrest throughout the world over of which has emerged a demand for an immediate consideration of the differences between capital and labor bids us put our own house in order. Frankly, there can be no permanent and lasting settlements between capital and labor which do not recognize the fundamental concepts for which labor has been struggling through the years. The whole world gave its recognition and consent to these fundamental purposes in the League of Nations. The same cannot be said that world stability could not be had by reverting to industrial standards and conditions against which the average workman of the world had revolted.

It is therefore a task of the statesmen of this new day of change and readjustment to recognize world conditions and to seek to bring about through legislation conditions that will mean the ending of age-long antagonisms between capital and labor and that will hopefully lead to the building up of comradeship which will result not only in greater contentment among the mass of workmen but also bring about a greater production and a greater prosperity to business itself.

To ameliorate the particularities in the demands of labor is to admit the justice of their complaint in many matters that lie at their basis. The workman demands an adequate wage, sufficient to permit him to live in comfort, unhampered by the fear of poverty and want in his old age. He demands the right to live and the right to work amidst sanitary surroundings, both in home and in workshop, surroundings that are devoted to the welfare and the right to provide for his children's wants in the matter of health and education. In other words, it is his desire to make the condition of his life and the lives of those dear to him tolerable and easy to bear.

The establishment of the principles regarding labor laid down in the covenant of the League of Nations offers us the way to industrial peace and conciliation. No other road lies open to us. Not to pursue this one any longer is to invite enmities, bitterness and antagonism which in the end only lead to industrial and social disaster.

The unwilling workman is not a profitable employee. An employee whose industrial life is hedge about by a series of artificial conditions which he did not create and over which he has no control, lacks that fine spirit of enthusiasm and volunteer effort which are necessary agencies of a great producing entity. Let us be frank about this solemn matter. The evidences of world wide unrest which manifest themselves in violence throughout the world bid us pause and consider the means to be found to stop the spread of this contagious thing before it saps the very vitality of the nation itself.

Do we gain strength by withholding the remedy? or is it not the strength of the nation that is to be gained in dealing with these manifestations of unrest which meet us on every hand as evidences of an economic disorder and to apply constructive remedies wherever necessary, being sure that in the application of the remedy we touch not the vital tissues of our industrial and economic life. There can be no recession of the tide of unrest until constructive instrumentalities are set up to stem that tide.

I also renew my recommendation that the congress pass a law regulating cold storage as it is regulated, for example by the laws of the state of New Jersey, which limits the time during which goods may be kept in storage, prescribe the method of disposing of them if kept beyond the permitted period, and require that goods released from storage shall in all cases bear the date of their receipt. Victor output reaches normal

The shortage in Victrolas will soon be relieved

Plans for expanding the plant to meet the tremendous increase in demand have been fully matured and are under way—astonishing increases are assured within the next few months.

The value of the Victor Talking Machine Company's output for October was the greatest in its history. The unprecedented shortage of Victrolas will therefore soon be relieved.

During the war practically 90% of the \$36,000,000 Victor investment was devoted to war work. This was responsible for the almost total disappearance of Victrolas from the market.

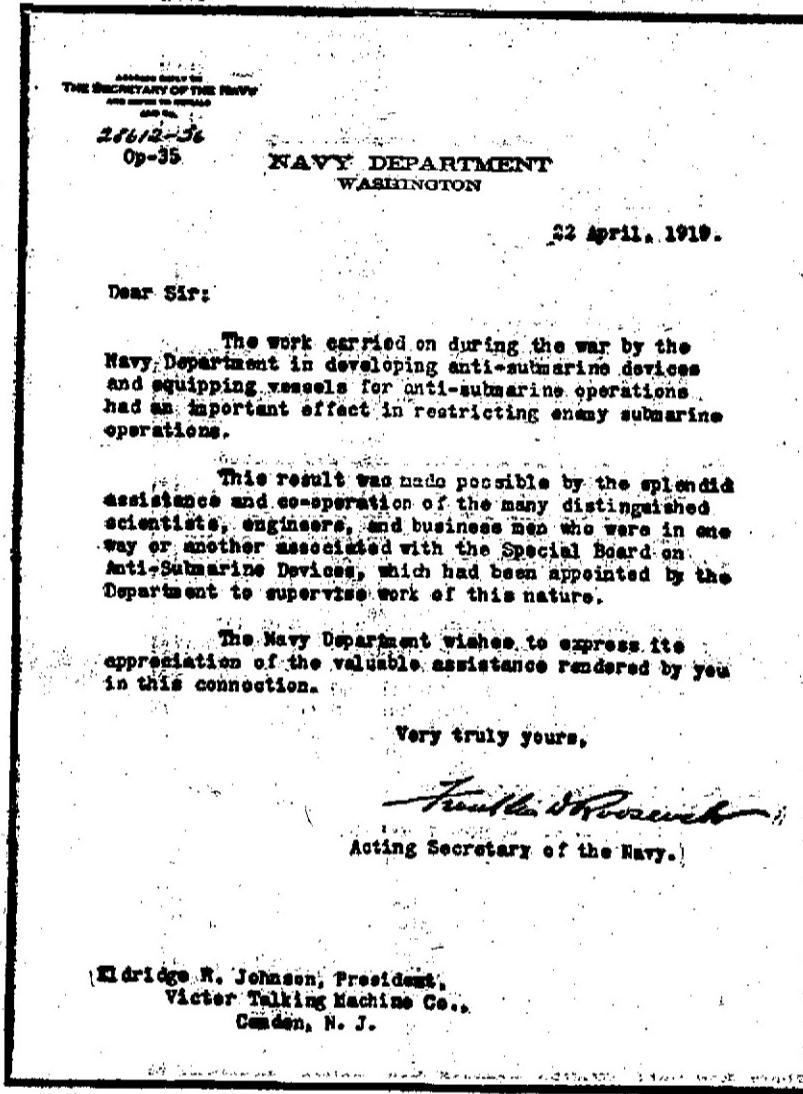

The armistice was signed in November, 1918, but it was not until March, 1919, that the Victor Company could clear its plant of war orders. And as it requires at least four months to manufacture Victrolas in the way the Victor Company manufactures them and in the way they should be manufactured, the rapidity of our recovery to normal output will be appreciated by all who know about manufacturing.

The Victor Company is the only talking machine company in the United States which has a complete plant for the manufacture of complete talking machines. All others are operated more or less by a system of contract construction—the fabricating system.

Years ago the Victor Company found it necessary to erect a large plant of its own in order to maintain its own standard of quality—VICTOR QUALITY.

NOTE—By reason of the above circumstances it is important that prospective customers visit a store where Victor goods are given fair presentation.

**Victor Talking Machine Co.,
Camden, N. J.**

As this plant happened to be exactly what the Government required to produce bombing hydro-aeroplanes and other submarine detecting devices, the Victor plant was chosen for the place of honor and sacrifice, while our less fortunate or less competent competitors were ignored and allowed to continue.

This is the true story, the cause of the shortage in Victrolas, which our competitors have not been slow to take advantage of.

Many of our exclusive dealers stood by their convictions, while some have not and

have put in competing lines which in many instances are inferior. This was their privilege, but we wish to point out that the advertisements which are appearing announcing several lines of "standard" talking machines are misleading.

There can never be several standards. The shortage of Victrolas and the lure of greater profits has induced the endorsement of inferior goods.

The Victor Company is the original manufacturer of the Victrola and holds all the original patents. In the last twenty-three years the Victor Company has originated all the startling improvements in the type of talking machine which it manufactures. Other manufacturers have simply followed, manufacturing instruments which are largely imitative.

The Victor Company is the only company in the United States fully equipped to make standard talking machines of the gramophone type—the Victrola is a gramophone *not* a phonograph.

There is only one standard talking machine and that is the VICTROLA.

There can be but one standard in any line, and the Victor Company produces the standard in talking machines.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the grippe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!—Adv.

Corns Come Off Like Banana Peel

"Gets-It" Leaves Too Smooth As Your Palm, Never Fails.

Ever peel off a banana skin? Well, that's the way "Gets-It" peels off any corn or callus. It's a picnic. Nothing else in the world will do it

"2 Drops of 'Gets-It' Goodbye Corns!"

but "Gets-It" because of the new secret principle in the "Gets-It" formula. "Gets-It" does away forever with contractions—"happy places" of contraction that make blisters, knives, and solvents that snap into the "quick." "Gets-It" eases pain. It takes but a second or two to use "Gets-It." There's no fussing or trouble. It dries immediately. You put your stocking right back on. You can come out of painlessly in one complete sweep. That's common-sense. It never fails. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill.

Sold in Newark and recommended as the world's best corn remedy by T. J. Evans, W. A. Erman and R. W. Smith.

Beauty Answers

BY MADAME MARIE

DIMPLES G.—Your complexion is not merely in the outer skin. It is in that part of the skin immediately underneath the outer layer. Complexion creams which merely affect the outer layer are as a rule very ineffectual. A method gaining wide use and giving tremendous success lies in the use of aromatic oil. This is simply mixed at home with a little glycerine and dissolved in water. This makes an exquisite cream. The zitton can be secured at any drug store in ornate packages for 50 cents. This is also a good cosmetic material. By liberal use of this article, a tremendous difference in the complexion is noted in a few days by the disappearance of muddiness, sallowing, red spots, freckles and other blemishes.

MRS. G. F. O. C.—Yes, you can remove blackheads in a few moments, even while you are dressed in your toilet. And to think you have been years trying to get rid of these embarrassing blackheads! On a hot wet cloth sprinkle some powdered oregano, which you can get at any drug store for 50 cents. Rub this over the affected skin. You will find the blackheads will be entirely gone in a few moments. Continue this method every few days.

MRS. C. A.—By all means you should not use mechanical instruments for burn development. Use the formula, by mixing two ounces of rose oil, half a cup of sugar and a half pint of water. Two tablespoonsfuls of this after each meal, and one at bedtime, will in most instances do wonders. Of course, one can promise sure results in any one case, but this formula should do the work.

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

The case of the village of Pataskala versus George Emsweller, et al., was submitted to the court upon briefs, the point for decision arising upon the merger to the answer.

The village let a contract to George Emsweller for the erection of the town hall. Before the completion of the contract the contractor was caught by and the village took over the contract, the high prices of material and labor, and completed the work. The village is now endeavoring to collect from the defendant and his bondsmen the difference between the contract price and what it cost the village to complete the contract. The bondsmen claim that the contract is void because there was no certificate filed that the money to pay the contract price was in the treasury when the contract was made. The court will decide whether this defense is good as a matter of law.

TECHNICALITY IS POINT RAISED IN LAW SUIT

There is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. Pinex Co., Ft. Wayne, Ind.

DR. STEWART SEDGWICK GETS DENTAL LICENSE

Dr. Stewart Sedgwick, son of Dr. and Mrs. W. H. Sedgwick of Hudson avenue, successfully passed the state dental board's examination and has been granted a license for the practice of dentistry. Dr. Sedgwick was graduated last summer from a Cincinnati dental college. He has been confined to his home in Hudson avenue for a week to recuperate from a long vacation.

SOCIAL AFFAIRS

Jacobs-Hartman.

The wedding of Miss Cordia Hartman of Lancaster and Mr. George N. Jacobs of 14 Maholm street, was solemnized Thanksgiving day at noon at the home of the bride. A wedding dinner was served following the ceremony and the couple left on a wedding trip to Ft. Wayne, Ind.

Mr. Jacobs is employed as a street car conductor and they will be at home after December 10 at 233 South Williams street.

Moore-Warrington.

Saturday evening at seven o'clock at the residence of the officiating minister Rev. Calvin G. Harriet, Miss Nora Blanche Warrington was given in marriage to Mr. Frank Mackey the ring ceremony of the Presbyterian church being used. The bridal party included Mrs. Wilbur Brill and Mrs. E. Warrington. The newly wedded couple will make their home in Columbus.

Mrs. Ralph C. Brown entertained the Kismar Circle at her home in Granville on Friday afternoon. After a short business session light refreshments were served to the following members: Mrs. Mary Keller and son William and two daughters Harriet and Martha, Mrs. Grover Coe and daughter Emilie, Mrs. Harriet Ewers, Mrs. Maggie Jones and daughter Frances, Mrs. Nestor Deference, Mrs. Bertha Proctor and daughter Dorothy, Mrs. Mable Able, Mrs. Anna Grove and the daughters Betty and Harriet, Mrs. Zella Price, Mrs. Ade Deeds and daughter Ruth Eileen and the hostess Mrs. Ethel Brown. The guests were Mrs. H. K. McGinnis, Emalene McGinnis, Mrs. Bethie Brown, Blanche Brown, Mary Price from Black Lick and Miss Pearl Blaine of Columbus.

Miss Jewett of Aberdeen, S. D., was the honor guest at a dancing party Saturday arranged by Miss Angela Kennedy at her home in North Fifth street. The guests were Misses Jewett, Catherine McMillen, Bessie Hirsch, Elizabeth Smith, Gwendolyn Davies, Mary Rosebrough, Charlotte Knauß, Miriam Daly, Messrs. Ernest Johnson, John Fitzgibbon, Fleek Miller, Ralph Allen, David Hirsch, Hunter Kemberger, Norbert Smith, Robert Garrison, Wilson Rosebrough and Master Francis Kennedy.

The anniversary society of North Franklin will meet with Mrs. Austin Orr Thursday afternoon, December 4.

Wednesday evening Mr. and Mrs. A. M. Claggett entertained with a surprise party in honor of their daughter Eva's fourteenth birthday anniversary. She received many nice gifts. The evening was spent in games and music. At late hour a dainty luncheon was served to the following guests: Misses Claron, Mabel and Zella Hickman, Della Rector, Lena Crawford, Helen Rian, Margaret and Mary Flowers and Bessie Stevens. Messrs. Darrel and Everett Wintermute, Harold and Paul Wise, Gall, Lowell and Newton Vermillion, George and Charles Handley, Delmar Hickman, Forest Morrison, Ralph Flowers and Raymond Stevens.

The Women's Christian Temperance Union of the city will meet to federate at the home of Mrs. Charles Metz, 20 North First street, Wednesday afternoon at 2 o'clock.

The Monday Talks held the regular meeting at the home of Mrs. L. P. Franklin, Monday afternoon, South America was the day's topic and ancient history was the subject for the papers. Mrs. Ernest Johnson's paper was "The Staircase Farms of the Ancients." Mrs. B. R. Weld talked of "The Fortress of Sacagawea." A protege of the Second Presbyterian church, a foreign girl, who is working among her people near Belaire, talked before the meeting.

Surviving are the husband and one son, William Catton living in Nineteenth street. Funeral arrangements have not been made.

Mrs. Mary Wulphoop. Funeral services for Mrs. Mary Wulphoop, who died Monday at her home in Clinton street will be held Wednesday afternoon at 2 o'clock in the home. Rev. Emil Kraft will officiate and burial will be made in Cedar Hill cemetery.

Mrs. Mary Barr. Private funeral services for Mrs. Mary Barr, who died Monday morning were held this afternoon at 2 o'clock in the home in Elmwood avenue, and burial was made in Cedar Hill cemetery.

Omie Philbrook. Omie Philbrook, daughter of John and Elizabeth Snyder Philbrook, was born in Liberty township, Licking county, Ohio, and on the old home farm spent all her childhood days. At the age of fourteen she was received into the fellowship of the Free Methodist church and was baptized by Rev. Whitaker. After the death of her father and mother she came with her sister, Miss Ella, to Granville where for the past twenty-nine years they have lived and labored, serving the public with untiring patience, faithfulness and courtesy.

Their home together has been one of mutual love and devotion. Naturally of a modest and retiring disposition, Miss Omie simply could not seek place, prominence and publicity. Her life was lived silently, but it was strong and clear in its purpose.

In religious makeup, she was the same as in her general life. There was nothing demonstrative about her. Her soul ran an even course without spurts or flights. She possessed a sweet reasonableness in all things. You knew exactly where to find her. She delighted in the great verities of the Christian faith; she had no tolerance for a weakened or diluted Gospel. God's word was to her sweeter than honey and the honeycomb. Sincerity and faithfulness characterized her personality, and the loving devotion to her loved ones was ever maintained without thought of the cost or sacrifice occasioned.

Miss Philbrook was especially interested in young people, and the children of her sister's household were in the truest sense her companions. She was a guiding influence in assisting these young people to a liberal education and better equipment for life's duties, and her gracious influence will live on in their lives to bless the world.

To her might well be applied the Master's appreciative words, "She hath done what she could." The alabaster box containing her remains was broken at the feet of her Lord in faithful service for her home and loved ones.

For the past few years she has been in failing health, at times passing thru deep waters of suffering, yet her natural disposition was cheerful, sunny, and even humorous, which went far to sustain her of such times. Everything was done by loving hearts and hands to prolong her life, but after performing the household duties, Thursday morning, November 13th, she was stricken with cerebral hemorrhage and at 4:30 in the afternoon, entered into

the arms of her Saviour.

The services will be held at 2 o'clock

in the home of Mrs. John and Mrs. Elizabeth Snyder Philbrook, 121 Elmwood Avenue.

Interment will be made in Cedar Hill cemetery.

INTEREST RATES

At the Buckeye State Building and Loan Co., Rankin Bldg., 22 West Gay St., Columbus, O., are as follows:

1. 4% paid on savings accounts.

MUTT AND JEFF

By BUD FISHER

THE MARKETS

Wall Street.

New York, Dec. 2.—Stocks were under moderate pressure at the irregular opening of today's session, the death of Henry C. Frick, probably exerting a sensational influence. Reductions among speculative shares extended from fractions to 2 points. The market rallied with the first half hour, however, on buying of standard rails, motors and various other leaders. General Motors featured the rally at a five point gain.

Cleveland Produce.
Cleveland, Dec. 2.—Poultry; old roost ers 20 and 21.
Potatoes, New York round whites \$4.50 per 150 pound sack.

Curious Collection of Pens.
In the prison at Lyons, France, there is a curious collection of pens. They are the pens with which the executioners signed the regulation receipts for the prisoners handed over to them to be guillotined. At each execution a fresh pen is used for the purpose and the ink is left to dry upon it.

Cocoa a "Divine Plant".
Cocoa, from the leaves of which cocaine is produced, was known among the Incas as the "divine plant" long before the western world was thought of in the East.

Navy Secretary
to Speak for Y.

JOSEPHUS DANIELS

Secretary and Mrs. Josephus Daniels know all about Y. M. C. A. buts overseas, for much of their time last winter was spent in the canteens scattered from Brest to Coblenz. The Secretary of the Navy will be one of the principal speakers at the Fortnight International Convention of the Y. M. C. A. in Detroit, November 19-23.

Were Hearty Eaters.
Many great musical composers had exceptionally large appetites. When Handel dined alone at a restaurant he usually took the precaution of ordering a meal for three. Haydn, yet more voracious, was known to consume a meal that would have satisfied five ordinary appetites.

Chinese Typewriter.
One of the most remarkable typewriters in the world was the machine specially designed and built for Li Hung Chang, the Chinese statesman. It had 1,800 keys. No dies were available, so the engraving of the type had to be done by hand.

Foundation of True Beauty.
The truest beauty arises from a noble character. A soul which is radiant with love and truth lights even the homeliest face into beauty which is not transient, but which grows ever deeper and more abiding as the years pass on.

A Drop of Water.
If a drop of water could be magnified to the size of the earth, each of its molecules would appear no larger than a baseball.

Hindu Children Mechanics.
Hindu children are remarkable for their precocity. Many of them are skillful workmen at an age when the children of other nations are learning the alphabet. A boy of seven may be a skillful wood carver; while some of the handsomest rugs are woven by children not yet in their teens.

An adjustable handle enables a new saw to make horizontal cuts easily.

WEANTS TO HAVE NEW POWER PLANT FOR GREENHOUSES

LATEST Mechanical Equipment Will Make Power House One of Most Efficient In Country.

Work is progressing rapidly on the new power plant, which is being constructed at the Weant greenhouse, east of Newark. The Rust Engineering company, of Pittsburgh, which has the contract for the erection of the refining plant for the Ohio Cities Gas company at Heath west of the city, is building the Weant plant which is of the most modern type.

The power house, when completed, will be 50x75 feet and 55 feet high. It will occupy ground west of the green houses at a point half way between the Ohio Electric right of way and the Hanover pike.

The plant was designed by Charles Iden, who is connected with the green houses and when completed will not only provide heat and power for the present plant but will have sufficient capacity to take care of the future expansion of the growing business of W. S. Weant & Son.

The boilers in the new plant were built by D. Conniley, of Cleveland, and are equipped with the Jones Co. type of surface stokers. They will have a capacity of 2,000 h.p. The fuel will be supplied by coal carriers manufactured by the Jeffrey Manufacturing company, of Columbus. The engine is a Terry steam turbine and generator.

The contractors are at present constructing the immense brick stack, which is being built of buff radial brick. When completed it will be 175 feet high and 8 feet in diameter at the top. It rests on a solid concrete foundation 23 by 25 feet, set deep in the ground to carry the immense weight.

The plant has been designed so the coal bunkers will be conveniently arranged at the top. These bunkers have a capacity of 300 tons, a 50-ton car being unloaded in three hours and placed in the bunkers by the coal carriers. Storage space is provided for 20 cars of coal. From the coal bunkers, filled by machinery, the fuel is fed automatically to the boilers. The coal burners will hold a two weeks' supply.

The entire plant has been designed with a view of saving fuel and its capacity will be sufficient to operate the steam heating system in the greenhouses, the electric lighting system for the entire Weant place, all motors, pumps, etc., used in connection with the "farm under glass."

The completed plant, ready for operation, will be turned over by the construction engineers about April 1. It will give the Weant greenhouses an economical and efficient plant with which to operate the greenhouses which have been growing rapidly since the venture started 12 years ago.

The Weant concern is growing hot-house vegetables for the out-of-season delicacies. The first product was hot-house lettuce. Late cucumbers were added and then tomatoes. The growing business demanded larger quarters than the first plans provided and a big addition was constructed until the plant now consists of seven acres under glass, making it one of the largest concerns of its kind in the Central states.

Weant's products are shipped to distant cities where a ready market is found.

EXTEND

(Continued from Page 1) emptied; iron and steel, jewelry, marble and stone products, musical instruments, paper goods (newspaper excepted); rubber goods, cigars, wagons and carriages, wood manufacturers, shoe and related products, leather goods, mattresses, paints and varnishes, photographic supplies and miscellaneous non-essentials.

Theaters, motion picture shows and all other places of amusement faced complete shutdown. Churches and schools also were included in that category, although efforts were being made to postpone closing schools as long as possible.

Caterers, except those producing only bread, also fell under the ban as did caterers and certain packing plants.

In some of those industries, however, an immediate shutdown might be foreseen if the regional coal committees permitted them to operate until their present supply of fuel was exhausted.

Many operators today believed that work in the mines soon would be resumed under inducement of the increased wage scale and the government and public appeal. On the other hand, John L. Lewis, acting president of the United Mine Workers of America, declared the government must redeem its pledge to the miners of a 31 per cent increase.

Lewis said the situation was unchanged as far as the miners were concerned. He would not predict the next move to end the tump.

Despite low temperatures that have spread over the west for the last few days, but little actual suffering because of the fuel shortage today had been reported.

In Nebraska, where near zero weather predicted, Kilgore had been without coal ten days. Western Kansas also without coal several days was to obtain an emergency supply, the fuel taken from the strip pits of that state.

Suspension of all traffic over the St. Louis and San Francisco railroad lines, out of Oklahoma City today was said to be only a matter of hours unless coal was supplied. All railroad traffic might be tied up at Oklahoma City by the end of the week, railroad officials there said.

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid soap from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Adopt this way and bring results.

In Indiana state officials expressed the hope that enough coal could be mined immediately to furnish state institutions with fuel.

GRANVILLE

(Special to the Advocate.)
Granville, Dec. 2.—At a meeting of the Peace chapter of War Mothers held Monday evening, the election of officers resulted as follows: President, Mrs. J. S. Graham; vice president, Mrs. Robert Briggs; secretary, Mrs. Harry Howe; treasurer, Mrs. H. A. Nixon. Mrs. Kinney was elected chairman of the Peace chapter of the Legion of the Sons of the American Revolution, and Mrs. Atwell was elected chairwoman of the program committee. It was voted to reduce the dues from \$1. to 50 cents. The plates were made for the banquet to be given by the chapter to the local soldier boys on December 4 at 5:30 p.m. in the Presbyterian church, under the management of The King's Daughters.

Two papers made up the program of the Travelers' club Monday afternoon the remainder of the time being passed in welcoming the new members, and in discussion of club business. Miss Anna Rees gave a description of "Bulgaria," the storm center of war for many years, and Miss McCune told of "Invention Developed by the War," citing the 200 and more war inventions which were listed in a German pamphlet found by American soldiers.

Mrs. W. E. Clemons entertained the members of the entertainment committee of the Travelers' club at her home in Granger street, Monday evening. This committee consists of the president, Mrs. H. H. Wick, Mrs. T. Chambers, Mrs. Lillian Prouty, Mrs. John Geach, Mrs. M. E. Stickney, Mrs. Pearl Pierson, Miss Daisy Howe, Mrs. Fred Pierson, Mrs. A. H. Conklin, Mrs. C. A. Stanforth, Miss Laura Herrick was a guest of the occasion.

James A. Huston left yesterday for Chicago where he will attend the International Live Stock show. Dr. W. E. Clemons also went from Granville as a guest of Harry Smith of Worthington road.

Mrs. Little Prouty is in Hillsboro visiting at the home of her son and daughter, Mr. and Mrs. Arthur Prouty. Mrs. C. B. White was one of 80 guests last evening at the piano recital of Miss Bess Hagmaier and Miss Bessie Larkin given at the Hagmaier home in Newark.

Mrs. Doane, who purchased Mrs. Helen Hunt's residence for the use of missionary classes in Granville yesterday and took measures to fit the complete furnishing of the house.

Mrs. Mabel Ashton is to have charge of the music booth at The King's Daughters bazaar on December 6. Donations of sheet music or Victrola records will be received at headquarters at any time.

Mrs. Jennie Moore and Miss Mable Moore of Newark were Sunday guests of Mrs. Florence Hara.

Mr. Kenneth G. O'Neil and Mr. Knissman of the Phi Gamma Delta fraternity house spent Sunday at Glenn O.

At the Christmas bazaar on December 6th, the Kings Daughters will have a special booth for music, and Mrs. Mabel Ashton is collecting the music to be sold. Any persons who have pieces of music, or Victrola records they would care to contribute to this cause, may bring them to the King's Daughters headquarters at any time.

DRESDEN BOY ENTERS ARMY TO GO ABROAD

Herbert E. Adams, of Dresden, was accepted yesterday by Sergeant John M. Barlow, in charge of the local army. Adams enlisted with view to service with recruiting office at the post office, the A. E. F. France and Germany and will be sent without delay to Camp AA, Hunterdon, N.J., for indoctrination. Sergeant Barlow stated that the quota for the railroad company is about filled and it will undoubtedly be closed soon.

The Panama canal zone is now open for nearly every branch of the service. There are approximately 1700 vacancies in this department including infantry, cavalry, coast and field artillery, and the various staff corps. Sergeant Barlow has spent an enlistment in the canal zone and will gladly give information regarding the country, people, climate and the canal with its wondrous working locks, to those who may be interested.

Theaters, motion picture shows and all other places of amusement faced complete shutdown. Churches and schools also were included in that category, although efforts were being made to postpone closing schools as long as possible.

Caterers, except those producing only bread, also fell under the ban as did caterers and certain packing plants.

In some of those industries, however, an immediate shutdown might be foreseen if the regional coal committees permitted them to operate until their present supply of fuel was exhausted.

Many operators today believed that work in the mines soon would be resumed under inducement of the increased wage scale and the government and public appeal. On the other hand, John L. Lewis, acting president of the United Mine Workers of America, declared the government must redeem its pledge to the miners of a 31 per cent increase.

Lewis said the situation was unchanged as far as the miners were concerned. He would not predict the next move to end the tump.

C. OF C. FORUM WILL DISCUSS AMERICANIZATION

The members forum of the Chamber of Commerce will discuss "Americanism" at a meeting Friday night at which the members of the American Legion will be guests.

The meeting is called for 7:30 o'clock in the Chamber of Commerce and the discussion will be opened by John S. Fleck.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid soap from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Adopt this way and bring results.

SAYS SHE COULD HARDLY GET HER BREATH AT TIMES

Stomach Distress Was Corrected
By Dr. Williams' Pink Pills in
Case of This Ohio Resident

"I owe my present health to a friend who advised me to try Dr. Williams' Pink Pills," says Mrs. Walter Postle, of 288 East Main street, Marion, Ohio, "and I am glad of a chance to recommend the remedy to others.

"Overwork was chiefly the cause of my debility and in spite of everything I tried I did not get any better. My stomach bothered me constantly and sometimes the distress with gas was so great that I could hardly get my breath. My appetite was poor and no matter what I ate suffering was sure to follow. I also had severe pains in my head and couldn't sleep.

"A friend who had been greatly benefited by Dr. Williams' Pink Pills urged me to try them and she was so persistent that I procured a box. The remedy certainly helped me. In a short time my digestion improved and in a few weeks I was able to eat a hearty meal with real enjoyment. My appetite is improved and I have gained considerable strength. I feel better than I have for a long time and no longer tire easily."

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50 by the Dr. Williams' Medicine Co., Schenectady, N.Y. Write to us for the free booklet "What to Eat and How to Eat."

LEADING FORCES ON BALTIC FRONT

Col. Von Lettow Vorbeck, above, and Col. Avaloff-Berndt.

ORPHEUS FOUR GIVES CONCERT LAST NIGHT

A splendid number appeared on the High school lecture course last night, when the Orpheus Four gave a well arranged and attractive program.

They have done considerable singing in the canonnons of the country, and they were enthusiastically received here last night.

Col. Von Lettow Vorbeck, at the head of his African troops and a force of 30,000 Germans, recently crossed the frontier into Lithuania, according to dispatches. They are meeting with stiff opposition from the Letts.

Col. Avaloff-Berndt is the leader of the Russian Baltic army which cooperated with the German army of General Von der Goltz in the capture of Riga. He now declares he is friendly with the allies and his aim is to fight the Bolsheviks.

Baker's Dozen.

In most countries it is always spoken of as "the baker's dozen," but in Italy it is called "a cobbler's dozen." There is a tradition in that land formerly there was a law compelling cobblers to put 12 nails around the edge of a boot heel, and that when nails were cheap a thirteenth nail was put in the center for luck.

Cultivating Sugar Cane.

The methods of cultivating sugar cane in Trinidad are beginning to undergo radical changes through the introduction of American plows and cultivators, hay rakes, mowing machines and crushers and pulverizers of feed for mules and cattle.

Alcohol From Moss.

A Swedish syndicate is planning to distill alcohol spirit from white moss, there being enormous quantities of it available.

BATTLESHIP Coffee

Nearly every kind of coffee smells good in the making. But your taste as well is captivated by the deliciousness of Battleship Coffee. Its flavor is as good as its enticing fragrance.

Coffee—The Perfect Drink
THE CANBY, ACH & CANBY CO.
DAYTON, OHIO

What's In Your Bottle of Milk?

YOU are right to rely on milk! It is your best food—it brings health and strength—it is the least expensive nourishment in existence.

But what if you could get a milk just twice as rich, twice as creamy, twice as nourishing as dairy milk?

You can. That double richness—that nourishment of twice the quantity of dairy milk—is exactly what you get in a bright tin of Every Day Milk. Nothing is added—nothing but water taken out.

And although you will enjoy its cream-like taste and its richness, you can buy it for much less than the cost of cream!

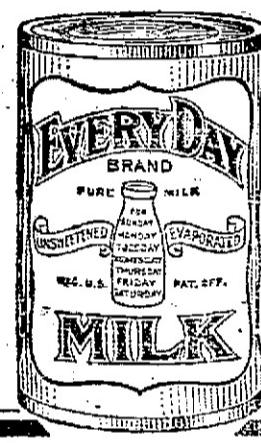

That is why women like you, who care about housekeeping, use Every Day instead of cream on cereals and in coffee—in cooking—and give it (with water added) to their children to drink.

Be independent of the ice man and the milk man. Every day use Every Day—the safe and pure milk.

EVERY DAY MILK

What about those ugly skin blemishes?

Why don't you get rid of them? Be free to enjoy life—not unhappy because wherever you go people are noticing your poor complexion.

RESINOL SOAP is just the help you need in that direction. Its wholesome lather roots the impurities out of the pores and helps to make the skin as nature intended it to be—radiant and healthy.

It is also excellent for the bath and general toilet use. The Resinol medication it contains makes it an ideal cleanser for the hands which should be washed many times a day as a safeguard to health.

At all druggists and toilet goods counters.

Resinol Soap

Discriminating men like Resinol Shaving Stick because it sooths and refreshes the face, while supplying a rich, creamy, non-drying lather.

A Woman's Message to Women:

"When I received your generous trial treatment, I was run-down, almost a wreck, could scarcely stay up to do anything. I was so tired that I could hardly control myself. But believe me when I say that Resinol gave relief at once, and now I feel like a new woman again. I am so much better that my old troubles down feelings are all gone. I honestly believe I was cured from any operation. Mrs. Summers' Opaline Remedy is good, but Resinol is better. Please let me know what it will lead and suffice to recover."

MRS. G. CARTER, Mrs. Resinol Ave.

DETROIT, MICH.

"Six months ago I wrote for a sample of Mrs. Summers' Opaline Remedy. I had spent hundreds of dollars seeking health, before I found Resinol. I had tried every medicine and used your remedy. I was just at the point of despair, as I was in terrible shape from not having proper care. I am now in perfect health, and boxes of your treatment, and today I am a well woman, and I am not afraid to tell the world about Resinol. Please accept my gratitude. Use my letter when you write, as I am convinced there is nothing in the world like the Opaline Treatment."

MRS. CHARLES LINTON, 316 Lorain Street,

CINCINNATI, OHIO.

The Slightest Symptom
—Check It Effectively.

Act in time if you would be healthy in the future. Too many people are lax concerning their physical welfare. Day by day they grow worse until hampered by headaches, backaches, sleepless nights due to unnatural positions, etc. The best advice we can give follows. Your kidneys must function properly if you would be strong and happy. Dodd's Kidney Pills have been the standard remedy for nearly fifteen years. Do not neglect them. Buy them at drug stores. If it has none send us his name and \$5.00 for the genuine Dodd's three D's Kidney Pills. The Dodd Medicine Co., Buffalo, N.Y. A safe cathartic - Diamond Dinner Pill.

ALHAMBRA

LAST TIMES

FRED STONE in "THE GOAT"

TOMORROW AND WEDNESDAY

Adolph Zukor presents
PAULINE FREDERICK
"Resurrection"
A Paramount Picture

This picture is a bitter arraignment of the double standard of morality. It is the most powerful heart interest story written by the great Russian dramatist, Count Leo Tolstoy.
Aside from its entertaining qualities, the picture contains a lesson for students of the "why" of Russia's present predicament.

AMUSEMENTS**AUDITORIUM**

Last Night's Show.
"The Wanderer," a biblical play in three acts by Maurice V. Samuels, staged by David Belasco was presented at the Auditorium theater last night to a large audience, each member of which was highly pleased with the portrayal of the play made famous under the direction of F. Ray Comstock and Morris Gest and which has had success since its long run in the me

scored emphatic success, but it is said that her latest Paramount vehicle, "Resurrection," a picturization of Count Leo Tolstoy's famous novel of Russian life before the debacle which is to be shown here at an early date, is by far the most effective picture, from the standpoint of artistry, in which she has as yet been seen.

—

Auditorium-Alhambra Notes.

Large out of town parties were in evidence at the Auditorium theater last evening to see "The Wanderer." People from Zanesville were noticed and as this attraction played that city a week or so ago this proved that the attraction was well worth miles going to see.

A large happy was taken at the Auditorium this afternoon for "Maytime," seats were placed on sale. This as a Shubert attraction and is playing to turn away business all along the line and doubt Newark will follow suit.

The Alhambra has Fred Stone, noted

for his work with his partner Montgomery who as the team of Montgomery and Stone were rated as the best comedians on the American stage. Stone is appearing in the Paramount picture

"The Goat," the last showings being

seen this evening.

"Once when I had made her jealous

for fur—for something I had whispered

or said or done—she drew from her

breast a queer little dagger—Quick-

stroke of a wasp is made me stagger

and scratch the count in Texas

Down by the Rio Grande. These are

lines for the grand Alhambra.

Last

several weeks ago and is brought

back owing to the success it received

in its former screening. Miss Kennedy

is a local favorite with movie fans

and no doubt the Auditorium will be

crowded both afternoon and evening.

Lyric

The Auditorium picture for tomorrow is the Goldwyn Photoplay "Through the Wrong Door" in which Madge Kennedy is the star. This picture is a return date having played the Alhambra a few weeks ago and is brought back owing to the success it received

on its former screening. Miss Kennedy is a local favorite with movie fans and no doubt the Auditorium will be

"DANDERINE" FOR FALLING HAIR

For a few cents you can
save your hair and dou-
ble its beauty.

SAYS UNCLE SAM MEANS BUSINESS THIS TIME

Washington, Dec. 2.—"The state de-
partment means business this time,"
declared Representative Porter, chair-
man of the house foreign affairs com-
mittee yesterday after an hour's con-
ference with Secretary Lansing on the
Mexican situation.

Chairman Porter declared that for
three years he had believed that an
amicable intervention in Mexico through
the agency of political entities or force-
able intervention would be necessary since
that there was nothing in his talk with
Secretary Lansing to cause him to
change that opinion.

SAYS SOLDIERS TOOK MONEY FROM GAMBLERS

Youngstown, Dec. 2.—Mayor A. C.
Craver, replying yesterday to a request
from the local post of the American
Legion for an investigation of the city
police department, told the former sol-
diers to present their case to the grand
jury for action.

Chief Police James Watkins,
answering legion charges that the
police are in collusion with the crimi-
nal element here issued a statement in
which he charged legion members who
served as special police during the
steel strike with extorting money from
keepers of gambling houses and other
resorts and with blackmail and robbery.

Fifty Legion police were discharged
yesterday on the ground that the steel
strike no longer requires their ser-
vices.

WHO WILL WRITE THE BEST ESSAY

The R. B. White Lumber
Company Conducts Essay
Contests Through Their
Local Yards in Utica and
Granville in Which \$115
in Prizes is Offered.

Essay writing contests of unusual in-
terest are being conducted by the R.
B. White Lumber company through their
lumber yards at Granville and Utica.
The contestants have an op-
portunity of competing for a total of
\$115 in cash prizes. Mr. E. B. Cheshire,
general manager of the Granville yard,
is supervising the contest in that town
and a choice of the following subjects is
offered:

(1) The Value and Benefits to the
Farmer of Having Good Buildings.

(2) Why I Prefer a Home Built of
Wood.

(3) What a Good Lumber Yard
Means to Our Town.

Mr. H. B. Watkins, general manager of
the Utica yard, is in charge of the
contest in Utica and the subjects are
the same as those at Granville except
the third subject is: "How I Made a
Rock Ranch (or other article of furni-
ture)."

WHO MAY COMPETE.

Any pupil in the seventh and eighth
grades in the Granville district and any
pupil in the seventh or eighth grades in
the following townships of the Utica
district:

Eden, Burlington, Washington and
Utica village.

Also any pupil in the high schools of
Utica and Granville are eligible.

The pupils will receive instructions
from their teacher regarding the rules
of the contest. The R. B. White Lum-
ber Co. offers the following prizes:

First prize for high school essay, \$4.00

Second prize for high school essay, \$3.00

Third prize for high school essay, \$2.00

Fourth prize for high school essay, \$1.00

First prize for seventh or eighth
grade..... \$4.00

Second prize for seventh or eighth
grade..... \$3.00

Third prize for seventh or eighth
grade..... \$2.00

Fourth prize for seventh or eighth
grade..... \$1.00

These contests are separate and dis-
tinct and the above prizes will be of-
fered separately in both Utica and Gran-
ville.

Competent judges will be selected at a
later date who will pass upon these
essays. The best one of all from Utica
and the best one from Granville will be
chosen and sent to the "American Lum-
berman," a magazine that goes all over
the United States. The essays sent to
the "American Lumberman" will com-
pete in a national contest being con-
ducted in a great many other states for
the following prizes: First prize, \$25;
second prize, \$20; third prize \$15; fourth
prize \$10; fifth prize \$5.

The photographs of the first prize
winners will be published together with
their essays.

See your teacher at once. Get busy
and win one of these prizes.

17,000 TONS FROZEN MEAT PUT ON MARKET

Washington, Dec. 2.—The war depart-
ment announced yesterday that it was
offering for sale "through established
trade channels" about 17,000 tons of
frozen meat. Municipalities, country
schools, state institutions, hotels or restaurants
and retailers who purchase for imme-
diate domestic distribution may buy up
to January 15, after which any supply
left over will be disposed of through any
available means.

Beneath the top of a new tea wagon
is a tank into which dishes can be
placed and washed with water agitated
by a paddle geared to an axle of the
device.

THOMAS TO DIRECT LABOR OF NATIONS

To Guard Against In-
fluenza and Pneumonia

This Peerless All-Herb Nature Remedy
contains no harmful drugs and can be
used with safety by every member
of the family from Baby to dear old
Grandmother, and should be a staple in
every home as a first-aid in general
family ill. Containing just equal parts
of Bulgarian Blood Tea to break the cold—
take it steaming hot at bedtime—it
works like magic. It keeps the blood
rich and pure—and to relieve constipation,
indigestion, sour, gassy stomach,
liver, kidney and blood trouble it is
marvelous. If your druggist is out of it
you should have it at once—quick
shipment by insured mail. Send 65
cents for two months' supply, or
\$1.25 for large family five months'
supply. Address Marvel Products Co.,
sole manufacturers of Bulgarian Blood
Tea, Marvel Building, Pittsburgh, Pa.
Advt.

TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns
Hopkins hospital. Thousands of men
suffering from fatal diseases would be
perish health today were it not for
the deadly drug Nicotine. Stop the
habit now before it becomes too late. It's
a simple process to rid yourself of the
tobacco habit in any form. Just go to any
up-to-date drug store and get some
Nicotol tablets; take them as directed
and lo, the pernicious habit quickly
vanishes. Druggists refund the money
if they fail. Be sure to read large and
interesting announcement by Doctor
Connor soon to appear in this paper.
It tells of the danger of nicotine poison-
ing and how to avoid it. In the mean-
time try Nicotol tablets; you will be
surprised at the result. Advt.

LEGAL NOTICE.

Mary Blanche Raison, whose place
of residence is unknown, will take no-
tice that on the 27th day of October,
1919, Thomas R. Raison filed his peti-
tion against Mary Blanche Raison in
the Probate court of Licking county
being cause No. 4216 praying for di-
vorce. Mary Blanche Raison on
grounds of desertion, fraud and adultery.
said cause will be for hearing after
the 8th day of December, 1919.

PET CORNS

Few Drops of "Freezone" Then Lift
Corn Right Off

A tiny bottle of "Freezone" cost so
little at any drug store; apply a few
drops upon any corn or callus. Instant-
ly it stops hurting, then shortly lift off
with your fingers. Truly No humbug!

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands
since Dr. Edwards produced Olive
Tablets, the substitute for calomel. No
gripping results from these pleasant
little tablets. They cause the liver
and bowels to act normally. They
never force them to unnatural action.
Dr. Edwards' Olive Tablets are a
soothing, healing vegetable compound
mixed with olive oil.

If you have a bad taste, bad breath,
feel dull, tired, are constipated or
sickly, you'll find quick and sure re-
lief from Dr. Edwards' little Olive
Tablets at bedtime. 10c and 25c a box.

Purchases New Home.
Arthur Wiseman of the Cornell
Clothing company has purchased the
J. C. Berger home in Fairfield avenue
In Auditors Office.

Miss Ethel Palmer, student of Newark
Business College, is assisting City
Auditor Dodd this week.

Takes New Position.
Miss Ruth Iden has taken a position
with the Ohio Power Co.

Colonel Wilson Comfortable.
Colonel E. S. Wilson, editor of the
Ohio State Journal, who is ill at his
home in Columbus, is making a comfort-
able day-to-day recovery. There is an appre-
ciable change in his condition. He was
greatly cheered yesterday by a large
number of letters from all parts of the
state expressing best wishes for his re-
covery.

Barber at Boyer's.
Otto Fike has taken a position at the
F. C. Boyer barber shop in South Second
street.

Traveler Alone.
Robert Marshall, the 10-year-old son
of Mrs. Verna Marshall of the Wyeth
Victoria store, left Monday morning for
Pittsburgh where he joined his grandmother,
Mrs. John Marshall of Kittanning, Pa. They continued their jour-
ney to Tampa, Florida, where they will
spend the winter.

Is Seriously Ill.
Miss George McCoy of 64 Linden ave-
nue underwent an operation at Grant
Hospital, Columbus, Saturday for appendicitis.
Her condition is regarded as
serious.

SEEK TO IDENTIFY MAN
AS NEWARK AUTO THIEF

Police Chief James Sheridan left to
day for Cambridge in company with an
employee of the Spillman garage in an
endeavor to identify a young man con-
fined in jail there on the charge of
stealing an automobile. The police
hope that the prisoner may be the per-
son who stole the Dr. C. L. Wyeth
auto in this city some weeks ago. When
the doctor left the stand he un-
screwed the oil cap distributor and
placed it in his pocket. After the car
was stolen a young man called at the
Spillman garage and purchased a cap
identical to the one on the Wyeth car.
The young man who sold it to him accom-
panied Chief Sheridan to Cambridge
today. In case he can be identified it
is hoped then to obtain a clue to the
identity of the men who stole the Wyeth
car.

Ladies and gents coats relined. Vel-
vet collars put on. Soldier overcoats
dyed in three colors. Good work done.

XMAS THRIFT SALE.

Trinity Parish House,
Thursday afternoon Dec.
4th. Buy your Christ-
mas presents here. 13t

(Continued From Page 13)
rate of \$10 for all machines under 25
horsepower; for machines with less than
35 and more than 25 horsepower \$20
and for machines of 35 or more horse-
power \$3. Trucks would be charged on
the same basis except that \$2 would be
added for each ton of gross weight.

The committee may also recommend a
reduction in the fee which county
auditors would be allowed for issuing
licenses. The present bill makes the
auditors fee 20 cents. This would take
\$100,000 from the fund it is pointed out
but has been suggested to the committee
that this fee be cut in two.

The bill will authorize the secretary
of state to deputize representatives of
automobile clubs and others to issue
the licenses and distribute the auto-
mobile tags, the same to be done with the
motor vehicle identification tags.

The graduated automobile bill was in-
troduced at the opening session Monday
evening and referred back to the taxa-
tion committee for some slight amend-
ments before it is put up for passage.

The proposed income tax law may be
introduced Tuesday. It is expected to be
met with strenuous opposition and no
attempt may be made to pass it until
later in the session.

Temperance forces in the house have
indicated a waiting willingness draft-
state wide prohibition. Representative

of a measure for the enforcement of
C. C. Crabb, chairman of the house
temperance committee has suggested the
naming of a committee of three

drys and three wets to try and agree
on a prohibition enforcement bill that
will be patterned after the Volstead fed-

eral prohibition act.

Senator Miller, chairman of the sen-
ate finance committee declared he was

ready to introduce a prohibition enforce-
ment bill fashioned after the federal

and placing the power of enforce-
ment in the hands of an assistant to

be appointed by the attorney general.

There is a third prohibition enforce-
ment proposal originating with the Repub-
lican state advisory committee and mem-
bers of the assembly, which simply

provides for a simple prohibition en-
forcement act fixing penalties for viola-
ting the state prohibition amendment,

without attempting to define intox-
icating liquors and creating no new mach-
inery for its enforcement. This group

takes the position that enforcement of
prohibition may be left to the federal
authorities and that the legislature

should not be detained here longer
than necessary to parley over prohibi-
tion legislation.

The joint taxation committee meeting

Monday night discussed proposals for

granting to the state tax commission

larger appropriations to enable the com-
mission to strengthen its machinery for

getting more property on the tax dup-
licate. Present laws on the statute books

are said to be adequate for this purpose

if sufficient appropriations are given the

tax commission to supervise local taxing

officials.

"More than half the counties of the

state there has been no appraisal of

real estate since 1910 although lands

have more than doubled in value in

many instances. A re-appraisal by local

county auditors of land values, taxers

believe will help to solve present finan-
cial difficulties of the various taxing

districts.

Members of the joint taxation com-
mittee said they knew nothing about a

bill introduced Monday night by Repre-
sentative Hoover, of Wayne county,

proposing to give the tax commission

power to compel banks to disclose lists

of depositors for the purpose of taxa-
tion.

That the new Hughes health code

which is scheduled to take effect Jan-
uary 1, is likely to be repealed unless

powers conferred on local health district

officials to levy taxes under the bill are

curbed is the opinion of those who have

sounded out sentiment of members on

the bill. Local county auditors have

complained that the fiscal provisions

of this bill as it now stands will bankrupt

many rural taxing districts.

Propaganda.

A doughboy who had just returned

from Coblenz was talking to a very

estimable elderly woman—a straight-
laced church member.

"How did you like it up in Germany,"

she asked.

"Oh, we got along very well with the
Germans," and, with a big, broad smile,

he added, "and had all the good Ger-
man beer that we wanted to drink."

"More German propaganda," ex-
claimed the elderly woman.

DESERVE MORE THAN PRAISE

Men of the Type of Private Oscar
Zwaid Surely Entitled to the
Country's Best.

Col. A. C. Read, inspector general,
asked General Liggett to write letters
of highest praise for the heroic conduct
of Private Oscar Zwaid, Fort Dodge.

By rushing fearlessly into a burning
freight car loaded with live shells, and
extinguishing the fire at great risk, he
saved scores of lives and possibly nearly
a million dollars' worth of munition
stores for Uncle Sam at the Mulheim
munition store yard, near Coblenz.

If the fire had not been promptly sub-
dued it would have resulted in blowing
up a whole trainload of shells, to which
the burning car was attached, together
with, possibly, many nearby buildings
filled with high explosives, stored there
for emergencies.

This is the type of man returning to
us now from abroad. Fearless, cour-
ageous, and ready to do the right thing
at the right moment. All may not have
received the D. S. C. but each one of them
is a valuable addition to any fac-
tory, office or workshop.

They return to us now in great num-
bers. About 300,000 are discharged
from the service every month. Col.
Arthur Woods, assistant to the secre-
tary of war, in charge of the re-em-
ployment work of the war department,
is leaving no stone unturned to find
employment for each one of them.

Comments on White Rule

Indians Have Flourished Only Where
the White Man Did Not Want
Their Lands.

In only two parts of all America are
the Indians as numerous today as when
the white men came—in Canada, north
of the Saskatchewan, where the popula-
tion is actually increasing; south of
the Rio Grande, in Yaqui land, where
whip and sword and rifle have failed
to conquer what should have been
pacified. In northern Canada the fur-
hunting Indians have prospered in peace
for two reasons. The white men
did not take their lands. They did not
want them. The land of the Far
North was only good for furs; and so
the second reason, or from purely
selfish motive to increase the output
of furs, the Indians have been treated
with absolute justice if, with absolute
despotism. The safety of the lone
trader's life depended on absolute justice;
and, oddly enough, the only Mex-
ican who has ever succeeded in controlling
the Yaquis has controlled them in
the same way, by leaving to them their
lands and by absolute, if at times des-
potic, justice.

Another Use for Bunny.

That Belgian hares have other re-
sourceful veins than meat producing
remained to be established by an ama-
teur English woman fancier. The climax
of her undertaking was when she ap-
peared at a large pet stock show in
England with a jaunty, becoming
hat, a coat, and a set of furs made
from rabbit skins, which she admitted
publicly were nothing more than some
of her pet rabbits.

In England, \$8,000 rabbit skins a
year are being made over into ermine,
Arctic fox and black lynx furs to fool
milady. Before the war such rabbits
were produced by scores of millions in
Europe, and vast quantities of the
skins imported to the United States to
masquerade as real fur. American
breeders are raising the same kind of
rabbits that produce the best money
for the fur shops; and it is certain
that as valuable rabbit fur can be pro-
duced in America as elsewhere. It is a
business that can be conducted
every month in the year, and a hobby
that will pay its way is one to be
valued.—Hunter-Trader, Trapper.

Helping Disabled Officers.

A small settlement of disabled Brit-
ish officers has been started at Gouth-
land, on the Yorkshire moors, a clergym-
an and his wife having given a

group of nine cottages, with a garden
and orchard, for the experiment. Here

a naval officer and his niece have
started weaving, while a blind officer,

trained at St. Dunstan's, has a poultry
farm. Others are considering the pos-
sibilities of beekeeping, fruit growing
and basket-making. It is believed that

the same qualities of leadership dis-
played on the battlefield can be uti-
lized by disabled officers in connection

with rural reconstruction in Eng-
land.

What to Do With Money.

If any man in this town really has
more money than he knows what to do
with we suggest that he take a trip
through the hospitals of the city and
discover for himself the crowded

conditions that exist. Personally we
know of one hospital that needs a new

wing that a few rich men could build
very quickly if they'd get together.

Anyhow what we started to say is
that there's so much needed to be
done that no man ought to have more
money that he knows what to do with
for the want of a worthy cause to
spend it in.—Cleveland Plain Dealer.

Propaganda.

A doughboy who had just returned

from Coblenz was talking to a very

estimable elderly woman—a straight-
laced church member.

"How did you like it up in Germany,"

she asked.

"Oh, we got along very well with the

Germans," and, with a big, broad smile,

he added, "and had all the good Ger-
man beer that we wanted to drink."

"More German propaganda," ex-
claimed the elderly woman.

Time To Be Considering The Making of Your Holiday Gifts

THINGS TO EMBROIDER

The woman who embroiders will find in our Art Department many dainty things from which to make her selection. So many new things in Royal Society Packages that will make not only useful, but attractive gifts. Among these you will find telephone screens, whisk broom holders, laundry bags, children's dresses, pillows and table scarfs, aprons, boudoir caps, ladies' gowns, corset covers and combinations.

DID YOU EVER THINK HOW MANY DAINTY GIFTS CAN BE MADE OF RIBBON?

The clever woman can design many artistic things with the use of the handsome ribbons which are shown for the holiday season.

For instance—there's the many little novelties for lingerie, such as corsage sachets, camisole straps, fancy garters, rosettes, etc.

Then there's camisoles, corset bags, boudoir caps, slippers, ornaments for the baby carriage, and many pretty vestees.

Beautiful Bags may be made entirely of ribbon, or they may be finished with a handsome bag top and chain of either shell, ivory or metal.

OUR TWO RIBBON SPECIALS WILL ASSIST YOU IN YOUR GIFT MAKING

A Fancy Ribbon at 45c is shown in pretty stripes and fan- cies, just the width the young girls like for the large hair bow.

Another Beautiful Ribbon at 65c is about six inches wide, shown in a big range of fancy patterns in all colors.

THE NEW ART SILK

for crocheting or knitting scarfs, caps, sweaters, etc., comes in all the pretty shades, and will make up into very handsome gifts.

F.H. Mazer Company

COUNCIL

(Continued From Page 1)
from the general fund to the health fund for that purpose and for unforeseen expenses for the balance of the year.

A bureau of inspection which would have charge of the installation of natural and artificial gas and under which plan inspectors would be required to pass upon and approve such installation was urged in another communication. Inspectors would be paid from a fund created by a small fee to be charged for the service, which would not only have a tendency to lower insurance rates but would also cause a clause to be inserted in the law providing for compensation in case of gas explosions which is not provided for under the present plan. A carefully prepared ordinance accompanied the communication which covered every feature of the proposed plan of the bureau of inspection. The plan was suggested by Attorney E. T. Johnson, and upon motion was referred to the law committee.

The following ordinances were passed under a suspension of the rules:

By Keyes and Newkirk—Requiring the B. & O. railroad company to construct sidewalks in Channel, Pine and Union streets.

By Knauber—Establishing fire limits and regulating the buildings therein. The boundaries to be on the north, the north line of Locust street, on the south, the north line of the B. & O. and the P. C. C. & St. L. Railway company right of way, on the west line of Fifth street and on the east by the east line of Front street.

By Riggs—To vacate East street from the east line of lot No. 2384 eastwardly to the North Fork of the Licking river.

By Knauber—Amending an ordinance providing for the issuance of building permits, the fee of 50 cents to be charged for a building whose maximum cost is \$500, \$1 for \$1,000, \$1.50 for \$2,500, \$2 for \$5,000, 2.50 for \$7,500 and a fee of \$3 for all buildings costing over \$7,500 outside of the fire limit and \$5 for all buildings within the fire limits except buildings or additions to buildings that are used exclusively as dwellings.

Councilman Keyes then introduced an ordinance for an appropriation covering the certified expense of the board of health which was submitted to council Nov. 26, and which asked for an appropriation of \$1,511.73. The ordinance provided that the auditor be authorized to draw warrants for the same when bills were presented for the same.

On a suspension of the rules the vote was seven yeas and two nays and on the passage of the ordinance one yeas and eight nays. The measure was defeated.

An ordinance was introduced by Councilman Baker amending a section of an ordinance fixing salaries, number and hours of service in the police department so that members of same shall be on an eight hour basis or working schedule, and members who are called to work extra shall receive pay for such work at their regular rate. The ordinance was given its first reading only.

An ordinance by Keyes transferring \$1,700 from the general fund to the health fund was passed.

STRIKE OIL IN BEREA SAND IN FRANKLIN TWP.

Well On Gutridge Farm Shows Oil at Depth of 750 Feet, One Quarter Depth of Most Wells.

Getting oil in the Berea sand in Franklin township has opened new territory in this district, and has created considerable excitement among the oil interests. All the oil obtained in this vicinity has been in the deep sand, which costs thousands of dollars more than a Berea well.

The B. P. and D. company drilling on the Gutridge farm in Franklin township on the Linnville pike, got out about four barrels a day in the Berea. The well came in last week.

The Everett company has been endeavoring for some time to get oil in that strata, in one instance it was dry and in the other two wells they got water at that depth.

The find of the B. P. and D. company will hasten activities in the new field, as the oil was secured at a depth of about 750 feet. The B. P. and D. company has about 800 acres under lease in that territory and the Carter Oil company, the Ohio Cities Gas company and the Medina Oil company have holdings in the same neighborhood.

M'DONALD WELL MAY FLOW 225 BARRELS

The Ohio Fuel and Supply company drilled No. 3 well on the Guy McDonald farm yesterday and it promises to equal No. 1 which was good for about 225 barrels. Number 2 well is drilling and is expected in a few days.

SHAWNEE WELL FLOWS INTO NEARBY CREEK

The Tracy West Oil company got an estimated 500 barrel well in wildcat territory near Shawnee. The well is on the Whitehouse lease. Before it could be shut in it flowed down the creek. It will be shot today.

FISHER IN CHARGE OF SUPPLY STORE

Charles H. Fisher has arrived from Clarksburg, W. Va., and taken the management of the Continental Fuel Supply company in the Seeger Hotel building. A handsomely furnished office is equipped in conjunction with the store. Finch of Columbus is district manager for the company which has headquarters in St. Louis. G. G. Lawther is traveling salesman and George Young formerly with the National Supply company is associated with the new concern.

GEOLOGISTS CAN AVOID DRY HOLES

W. C. Kite, an Oklahoma geologist estimates that 85 per cent of the 10,000 dry holes in Oklahoma could have been eliminated had the prospectors been advised by competent geologists. This would mean an immense saving of money for oil interests.

EXPECT WELL WEDNESDAY

The Emerald Petroleum company's well on the Willigan Run farm north of Perryton is expected in about Wednesday of this week. The company is drilling for oil.

START NEW WELL

The Ohio Fuel Supply company is putting up a rig on the Gaston farm in Harrison township.

TRINWAY WELL LOOKS GOOD.

The Trinway Oil and Gas company got into 2,000 feet sand yesterday afternoon and promises of a good showing of oil in the well on the Faucett farm in Cass township, Coshocton county.

OPERATES THREE STRINGS

The Everett company has three wells drilling. They are down 750 feet on the Leatherman farm near Perryton and 2,150 feet on the Lloyd Vassell farm one and half miles south of Black Run. A rig being erected on the J. H. Everett farm known as the Cherry Hill fruit farm south of Black Run.

GET 10-BARREL WELL

The Wehrle company got a ten barrel well on the Joe Moser farm four miles south of Clay Lick. This is the fifth well to be drilled on the farm.

GRATIOT SCHOOL

The following pupils of the Gratiot school were perfect in attendance during the month ending November 28.

Eloise Snider, Gertrude Irvin, Ralph Norman, Howard Kreager, Harry Kreager, George Bowers, Denzil Lawyer, Ollie Irvin, Carroll Martin, Narvel Harkness, Roland Harkness. Those tardy but not absent were Albert Watts and Ross Brown.

Most Distant Cepheids

The most distant cepheids now known are nearly 20,000 light years from the sun—almost as far away as the nearest of the globular clusters (about 21,000 light years).

It's all right to speed the parting guest, but good luck becomes bad luck when it says good-bye.

NEWARK'S BIG STORE

December Begins With

Astonishing COAT SALES

Featuring in particular three groups

GROUP NO. 1—

The Supreme Coat Values of the Season.

We just want you to see these Coats! There are values in the group as high as \$75.00—finest new materials and colorings—plain or figured linings of exceptional elegance—fur-trimmed or plain self-trimmed models. Coats that couldn't possibly be offered at such a price under ordinary circumstances. Special purchases of odd lots from noted manufacturers makes this sale possible.

GROUP NO. 2—

Especially elegant models in fur-trimmed or plain self-trimmed styles—belted or loose effects—developed in Velours, Kersey, Silvertone and Polo Cloth—Brown, Reindeer, Navy and Green—just the colors in favor this season. Coats that were originally priced from \$39.50 to \$47.50.

GROUP NO. 3—

Every one of these coats stands up to the Meyer-Lindorf Co. conception of quality. You will find elegant selection in this group, many different models and values of a character which easily rank among our greatest efforts. Materials in all wanted shades, consist of fine Velours, Twilled Velours, Polo Cloth, Silvertone and nubby weaves of the latest style. Coats that ordinarily would sell as high as \$40.00.

\$49.50

\$37.50

\$27.50

ALL CHILDREN'S COATS REDUCED FROM 10 TO 20%

Over a hundred garments to select from—all new, this season's coats in finest of fabrics, styles and colorings.
